Career Objective

I am seeking a challenging position at a growing-oriented company that will utilize my skills, technical experiences and management skills.

Working Experience

2018-Nov~ ACMV Site Engineer
2022-April *Constructive Engineering (Myanmar)*

Project -PTTEP International Project.

- Check invitation for quotation from main-com and decide to quote or not.
- If quote, ask suppliers quotation depending on tender.
- Pick up duct quantity including grilles, silencers, fans, louvers, flexible duct,
- And check quotations from suppliers and chose the best one for to quote VCD, MD, NRD, FD and need to pick up detail.
- And key in and do quotation according to scope of work.
- And then submit to main-com.
- Sometimes need to go and see site show round before quotation.
- Coordinate with Design Team & Sub-contractors.
- Check site and order materials like FD, Grilles, VCD, MD, NRD to suppliers.
- Check all site drawings & change according to site condition.
- Go & check site.
- In site, every day need to do attend safety meeting.
- Need to do site permits for all works.
- Go & check all works with drawings.
- Co-operate with main contractor and all others sub-contractors.
- Everyday need to do reports to office.
- Prepare for everyday works schedule.
- Order materials from suppliers for site necessary condition.
